To Whomsoever It May Concern

Sub: Proposal for infrastructural and other development of Village schools.

Dear Sir/Madam,

Greetings from BBrains Development Society!!

At this outset, I take this opportunity to extend my heartiest season's greetings. Further It gives me immense pleasure to introduce "BBrains Development Society" to your esteemed organization.

BBrains Development Society, commonly known as 'BiharBrains', is a non profit organization registered under society Act with special focus on awareness building on education and creating environment for research and development in Bihar. The organization came in existence in 2004 and has established its office in Patna(India). It is being run by Non Resident Indians NRIs, and educated people of Bihar.

To start and execute projects in the field of education, research and training and also to promote science in Bihar, the BiharBrains Scholastic center(BBSC) was established in June 2005 In a very short span, the popularity of BBSC has gained momentum ; The scholastic center organizes Bihar Science conference, SciTechFest, publishes Manthan(an online international magazine) organizing workshops and seminars on the cutting edge technologies as regular and occasional parts of its curriculum and work in the direction of establishing R&D centers in fields of science & technologies. The global core scientific council formed by BBSC is a major achievement under which these activities are being carried out.

The society has started **needy talent search scheme** under which village school level projects can be started with following aims and objectives

- To provide scholarship to needy talents
- To provide infrastructural support to village schools like (Hostel, Playground, , electricity, water and faculty and others)

We are happy to inform you that we already started three schemes (see annex) namely Malti Gauri Yojna, Sohagara Primary School Yojna and Rajendra Prasad Srivastava yojna and provide scholarship to 56 needy talents and other support at small level by these schemes; now we have

plan to extend support to these schools by providing infrastructural and other support for giving a shape to a model school.

Our plan is to provide following support to these schools

- a. Making or providing hostels for school with all facilities
- b. Providing and purchase of Land for Playground
- c. Providing online and physical library.
- d. Providing staff members including faculties
- e. Organizing regular programs and events in the school.
- f. Regular interface with career achievers

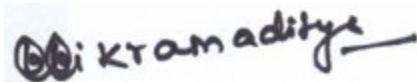

For above mentioned herculean task, we require financial support and association of national and international agencies. The required financial support for each project is around USD 50,000.

Interested national and international organisations are requested to come forward and support us for the noble cause.

We shall be happy to provide further required details of the interested organization.

Looking forward to your cooperation for further interaction.

With warm regards,

A handwritten signature in black ink that reads "Bibi Kramaditya" with a horizontal line extending to the right.

Bibhuti Bikramaditya
