Dated: March 30, 2006

To,

Dr. Anil Kumar

(Hon'ble) Minister, Science & Technology

Govt of Bihar, Patna

CC: Secy. Dept of Science & Technology, Govt of Bihar & PA To Minister, Science & Technology , Govt of Bihar .

Dear Sir,

I introduce myself as Chairman of the BiharBrains (www.biharbrains.org) an upcoming organization of educated people of Bihar in India and abroad(NRIs) with the objectives of creating work environment in the state and also inculcate a resource pool which are the basis components to encourage NRIs and industrialist to establish their R&D and business houses in the state of Bihar (Details of the organization are here enclosed with this proposal) . We discuss online through global chat on yahoo on the development projects related to Bihar in any of our USA, UK,Saudi Arabia, UAE, Canada, Germany, South Korea, Singapore, Delhi, Patna, Chennai, Mumbai, Pune, Hyderabad, Ranchi, Jamshedpur, Bangalore Chapter of BiharBrains monthly (or as and when it is required) on the agenda fixed by the chairman and representatives of the respective chapter and after discussion we execute those projects in Bihar from our scholastic Center, B.M Das Road, Patna . During 1.5 years of its existence, we implemented few projects and organized events and programs which are given below:

- a. Formation of world level three tier organization structure
- b. Inauguration of BiharBrains Scholastic Center at BM Das Road,Patna In July 2005
- c. Short term courses on VLSI technology (July 2005 & Feb 2006), 3D modeling courses and series of seminars on the cutting edge technologies in the regular fashion
- d. SciTechFest, 2005(A symposium on Contemporary Electronics and Computer Technology in Dec 2005 Inaugurated by Dr. Anil Kumar, Minister, Science & Technology.
- e. Career Guidance AND Counseling Program, in feb2006.
- f. Inauguration of Patna Resource Center at dept of Physics, Patna University by Sri K.K. Srivastava, EX-Chief Secy ,Govt of Bihar
- g. Release of magazine called" Manthan" in the inaugural function of Patna Resource center

The series of above mentioned projects reflects our effort and dedication towards scientific development of the state. In order to Build Bihar a Hub for research and development and center for formal and non formal education, we do feel that Bihar should have R&D Institutes which is at present doesn't exist. The local researchers don't get all facility to implement their ideas into action because of the unavailability of such high profile institute and also resources which are required for the implementation.

We do feel that Bihar is in the dire need of the institute to stop the brain drain and also the plight of intelligentsia from the country. We as group started a campaign for the same and demand for setting up of Research and Development institute in the state.

In this direction, we would like to draw your attention towards establishing NISC (National Institute of Science) and IISER (Indian Institute of Science education and Research) in Bihar as per announcement by the central government recently. The details of which are given below:

1. Keeping in view role of knowledge and education in transforming India into a developed country, it has been proposed, in the 10th plan of the UGC, to establish National Institutes of Science (NISC) in the different parts of the country.
2. The announcement to set up such institutes was made by our Hon'ble President on December 28, 2003 on the occasion of the concluding ceremony of the Golden Jubilee of the UGC.
3. Accordingly, there has been announcement for establishing National Institute of Science at Allahabad near Allahabad University, at Chennai near Anna University, at Pune near Pune University and at Bhuvaneshwar near Utkal University.(Details can be seen at http://www.ugc.ac.in/new_initiatives/newnis.html).
4. We would like to bring it in your kind attention that after the bifurcation of Bihar almost institutes of excellent education and research went into the new born state Jharkhand and thus in the remaining Bihar re-establishment of excellent centre of education and research in science and engineering is urgently needed.
5. On 13-08-2004, one of our members Prof. Rajkishore Prasad (at Present JSPS research Fellow, Japan) sent an application regarding this to our Hon'ble President and copy of the same was forwarded to the Ministry of HRD, all the MPs from Bihar and then CM of Bihar.
6. We also like to bring it in your kind notice that current central government has announced to set up Indian Institute of Science education and research (IISER) at kolkata, Pune and Chandigarh. Now it has been announced for the Kanpur also. It seems that IISER is similar to that of NISC; however there is no such announcement by Bihar Government. But Bihar is again not in the list of states blessed with IISER.
